Taeyeon to release new solo single

Girls’ Generation leader Taeyeon is making her solo comeback with an upcoming single.

The singer’s official X account announced the news on 23 June with a teaser video. In the video, Taeyeon can be seen sitting at a table in a dress, and then gets up and leave when a man arrives to take a seat in front of her.

The upcoming single is called “Heaven” and will be released on 9 July at 6pm KST. The singer hinted about a new single last weekend when she posted several photos of herself in a recording studio.

It is noted that Taeyeon’s last solo album “INVU”, was released in 2022.
