Social nurse Azaduzzaman Town, Shah Nawaz, Director of Challenge Coaching Center & Journalist Munshi Ashiqur Rahman. Speakers told the students at the event, "You are young now. Many people will try to push you to the bad side or the path of darkness."

Can't go wrong at all. Various situations can arise in life. But under no circumstances should the drug be touched. Because, drugs will not bring any benefit, but will push the life towards darkness forever.

Drugs destroy not only the individual but also his family.

Drug addicts often get involved in criminal activities. If it cannot be controlled, the society will be destroyed. So we have to build a social movement to eradicate drugs. We have to prevent its abuse.
