Voters will be able to vote safely

Haladhar Das, Narsingdi :: BNP Joint Secretary General and Narsingdi-1 (Sadar) constituency candidate Khairul Kabir Khokon said that Sheikh Hasina was forced to flee the country in the July-August movement, not in a two-month movement, but as a result of 16 years of continuous movement. Now voters have the opportunity to form a government by voting safely and independently.
Therefore, I urge everyone to go to the polling station and vote.

He said these things during a public meeting and courtyard meeting in 9 wards of Kathalia Union of Madhabdi Police Station of Sadar Upazila on Saturday (January 31) afternoon.
Khairul Kabir Khokon said that voting is the sacred responsibility of the people. The people's vote will determine whether good people or bad people, good party or bad party will run the country. If voters make the wrong decision, there is a risk of further oppression and torture in the future.
Therefore, he urged people to vote considering the individual and the party.

He also said that BNP has never fought for personal interests or compromised. If they had compromised, the party leaders could have lived a luxurious life. Even though Begum Khaleda Zia was subjected to unjust torture for a long time, she did not compromise on the issue of restoring the interests of the people and democracy.

He also said that BNP has repeatedly come to power through the people's votes, never through the back door. BNP has run the country through accountability to the people. Although BNP has been subjected to widespread oppression, torture, disappearances, murders and attacks on BNP in the last 17

years, the party’s existence could not be endangered. Because BNP is a people’s party, whose roots are very deep.

Local leaders and activists of Narsingdi district BNP and its affiliates and affiliates were present at the time.
